

Call for Abstracts, Short Courses & Field Trips

The Organizing Committee is pleased to announce that Mine Water Solutions 2025 is returning June 16-18, 2025, Vancouver, BC. This will be the fifth event in the conference series and will be focused on the central theme of “Proactive Water Management”.

The 2025 event will be hosted at the Nest Conference Centre at UBC, in Vancouver and online, to allow for more flexible and accessible options for delegates, speakers and sponsors to join the conference. The conference will utilize a professional production team and virtual platform to ensure an innovative and interactive experience.

Share your research with the global mine water community!

ABSTRACTS

You are invited to submit an abstract for a paper to be presented at Mine Water Solutions 2025. Practitioners in the mine water field are encouraged to share and publicize their research, models, design, equipment, engineering, operation, and closure activities with the global mine water community. **Papers will be published in the conference proceedings.**

We are looking for innovative and creative approaches to the following proposed conference topics:

- Proactive Mine Water Management
- Climate Risk and Resilience
- Mine Water Characterization
- Monitoring, Modelling, and Prediction
- Watershed Stewardship
- Community and Indigenous Relations
- Closure Water Management
- Mitigation Techniques
- Mine Planning

TEMPLATE

Abstracts should be submitted the online abstract and paper submission portal at the following link: <https://mws2025.exordo.com>

Please ensure that the following elements are included:

1. Title (no more than 100 characters)
2. Authors (name, email, affiliation and country)

3. Abstract (300-500 words)
4. Brief biography of the lead author

SHORT COURSES/WORKSHOPS

Please submit your completed short course proposal to: info@mineconferences.com
The Committee also invites proposals to run or contribute to Short Courses/Workshops. Note that the number of courses available will be limited in 2025. Ideally the short courses/workshops would incorporate at least one of the topics listed above, be collaborative across the industry (e.g., include participation from owners, designers, academics, regulators, etc.) and include case histories.

The Committee is accepting proposals for:

- Short course/workshop leads (that would coordinate and facilitate the course);
- and Collaborators that are interested in contributing to one of the courses.

TEMPLATE

Short Course proposals should be submitted using this Style Template to info@mineconferences.com, ensuring that the following elements are included:

- Title (no more than 100 characters)
- Lead presenter (name, email, affiliation and country)
- Co-presenters (name, email, affiliation and country)
- Proposal
 - Course duration – 4hr or 8hr
 - Short summary suitable for conference website
 - Detailed proposal

FIELD TRIP

Please submit your completed field trip proposal to: info@mineconferences.com
The Committee would like to invite proposals for field trips for the Mine Water Solutions 2025 Conference in Vancouver, Canada. Field trips allow participants to explore the local area and see firsthand the developments and practices discussed in the conference programming. Field trip organizers are responsible for the delivery and logistics of their trip.

Please include in your proposal:

- Trip title
- Trip overview (250 words max.)
- Equipment and attire.
- A chronological list of times and places for the trip.
- Directions to and from the field trip site.
- Is this day or overnight trip?
- A lead organizer (Required; name, institution, and email).

- Co-organizers (Optional; name, institution, and email for each).
- A mobile number for the lead organizer in case we need to contact you during the trip.
- Maximum number of participants.
- Anticipated equipment needs
- If applicable, outside funding to cover any fees. Include contact and amount to be contributed.
